Dear Ian Chatters

NHSPS Wellbeing Garden Halstead Hospital

IDC Greenscapes competed in a competitive tender in early 2024 to deliver a wellbeing garden for the staff, patients and communities around Halstead Hospital. They were selected as they provided best value for the job outlined, as well as being thorough and well presented in their paperwork. In the run up to the build, they were great to work with in terms of being very responsive in adapting to design changes, great communicators when it came to the risk and financial paperwork for the site and solid in terms of preparations and forward thinking when working to a very tight timetable. During the build they again proved to be flexible and responsive to adaptations needed on the ground and proved they always had the end result and client in mind when it came to meeting their needs. We are grateful to have benefitted from their plants and support during the volunteer planting session at Halstead Hospital also.

Many thanks to Ian and his team and we would happily recommend IDC Greenscapes to work on future greenspace transformations.

Yours sincerely,

Julia Evans
NHSPS Programme Coordinator
